← Here is a Title Block Pattern named: SE Simple
(Systems Engineering Simple)

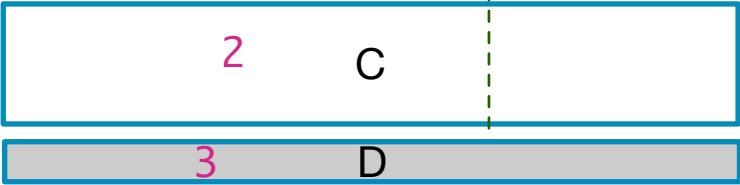

The outer frame is the Envelope Box (1) which is the most expansive Compartment Box

.25 We split it horizontally at 1/4 into Boxes 2, 3

The top portion is further split vertically at 2/3 into Boxes 5, 4

.66

Box 3 is a Data Box which means it may not be partitioned further

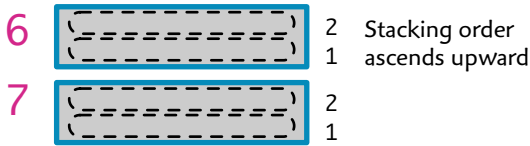

Data Boxes are organized into stacked text Regions. Each Region display a single unit of Metadata

Boxes 3 and 5 each consist of a single Region

Our example Frame puts the title Metadata in Box 5 and the organization Metadata in Box 3

Box 4 is a Compartment horizontally split evenly

Boxes 6 and 7 each consist of two vertically stacked Regions

The author and date Metadata items are stacked in Box 6 with the document id and version Metadata items stacked in Box 7
