OC API Documentation : 8 - Inputs objects - version 1.4.0

I. Introduction

The aim of this document is to provide the basic knowledge to the developers working at or for a National Federation in order to use the Entry System 3 API (ES3 API).

The ES3 API is provided to automate the management of entries between the NFs' IT system and the FEI's Entry System.

This document summarizes all the objects that can be set as parameters to send to the ES3 API according to the endpoints.

OC API Documentation : 8 - Inputs objects - version 1.4.0

II. Input objects

Invitation

!/\ Will be deprecated on a later version

Property	Type	Required	Description
athlete_fei_id	Integer	Yes	Athlete FEI ID. Used on POST "UEI" endpoint
